This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

REPORT

OF

THE COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, D. C., November 1, 1895.

SIR: In compliance with the instructions contained in your letter of September 10, 1895, I have the honor to submit the following report of the operations of the Bureau of Internal Revenue for the fiscal year ended June 30, 1895, with certain additional information relating to the work performed and receipts from the various sources of internal revenue during the months of July, August, and September of the current fiscal year.

The titles of the tables found at the close of the bound volume of this report are as follows:

Table A, showing the receipts from each specific source of internal revenue and the amounts refunded in each collection district, State, and Territory of the United States for the fiscal year ended June 30, 1895.

Table B, showing the number and value of stamps for special taxes, manufactured tobacco, snuff, cigars, cigarettes, distilled spirits, fortified sweet wine, fortified wine for export, fermented liquors, oleomargarine, and opium manufactured for smoking purposes; also the number of the different kinds of certificates of registry, with the number and value of documentary stamps used for validating unstamped instruments, issued to collectors of internal revenue during the fiscal year ended June 30, 1895.

Table C, showing the percentages of receipts from the several general sources of internal revenue now taxable in each State and Territory of the United States to the aggregate receipts from the same sources, by fiscal years, from July 1, 1863, to June 30, 1895.

Table D, showing the aggregate receipts of internal revenue in each collection district, State, and Territory of the United States, by fiscal years, from September 1, 1862, to June 30, 1895.

Table E, showing the receipts from specific and general sources of internal revenue, by fiscal years, from September 1, 1862, to June 30, 1895.

Table F, showing the ratio of receipts from specific sources of internal revenue to the aggregate receipts of the same, by fiscal years, from July 1, 1863, to June 30, 1895.

Table G, showing the returns of distilled spirits, fermented liquors, manufactured tobacco, snuff, cigars, and cigarettes, under the several acts of legislation and by fiscal years, from September 1, 1862, to June 30, 1895; also statement of the production of distilled spirits and fermented liquors in the several States and Territories, by fiscal years, from July 1, 1877, to June 30, 1895.

Table H, showing the receipts from special taxes in the seveal States and Territories for the twelve months ended June 30, 1895.

Table I. Abstract of reports of district attorneys concerning suits and prosecutions under the internal-revenue laws during the fiscal year ended June 30, 1895.

Table K. Abstract of seizures of property for violation of internal-revenue laws during the fiscal year ended June 30, 1895.

Table L, showing the collections, expenses, and percentage cost of collection in the several collection districts during the fiscal years ended June 30, 1894 and 1895.

COLLECTIONS FOR THE FISCAL YEAR ENDED JUNE 30, 1895.

In my last annual report I estimated that the receipts from all sources of internal revenue for the fiscal year ended June 30, 1895, would aggregate $171,000,000. This estimate was predicated upon large receipts expected to be derived from the tax upon incomes of over $4,000 per annum levied by the act of August 28, 1894. The decision of the Supreme Court of the United States, declaring the income tax unconstitutional, cut off all revenue from this source after only $77,130.90 had been collected, and as a result, the collections were $27,753,922.25 less than the sum estimated by me, the actual receipts for the fiscal year ended June 30, 1895, being $143,246,077.75.

RECEIPTS FOR THE PAST TEN FISCAL YEARS.

Fiscal year ended—	
June 30, 1895	$143, 246, 077. 75
June 30, 1894	147, 168, 449. 70
June 30, 1893	161, 004, 989. 67
June 30, 1892	153, 857, 544. 35
June 30, 1891	146, 035, 415. 97
June 30, 1890	142, 594, 696. 57
June 30, 1889	130, 894, 434. 20
June 30, 1888	124, 326, 475. 32
June 30, 1887	118, 837, 301. 06
June 30, 1886	116, 902, 869. 44

COLLECTIONS FOR THE CURRENT FISCAL YEAR.

After a careful comparison of the receipts from all sources of internal revenue for the months of July, August, and September, 1895, with the collections for the same months in previous fiscal years, and giving due weight to the improved business conditions manifested throughout the country in the peculiar lines touched by internal taxation, I estimate that the receipts from all sources of internal revenue for the current fiscal year will aggregate $165,000,000.

COST OF COLLECTION.

The cost of collection for the past fiscal year, distributed among the different items of appropriation, was approximately as follows:

For salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine, and the provisions of the act of October 1, 1891, relating to the payment of bounty on sugar		$1,796,980.88
For salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses		1,890,014.60
For salaries and expenses of sugar inspectors		1,512.03
For paper for internal-revenue stamps		40,945.90
For expenses of detecting and punishing violations of internal-revenue laws		50,000.00
For salaries of officers, clerks, and employees in the office of Commissioner of Internal Revenue		262,646.33
For enforcing the provisions of the act of August 28, 1894, imposing a tax upon incomes. Amount allowed for salaries of deputy collectors, clerks, and expenses in offices of collectors	$86,366.64	
For salaries of additional clerks and employees in the office of Commissioner of Internal Revenue	5,254.74	
		91,621.38
Total amount expended		4,133,721.12
Deduct expenses relating exclusively to the payment of bounty on sugar, as follows:		
For additional deputies and clerks	$551.08	
Salary and expenses of sugar inspectors	5,063.38	
Amount paid out under Chinese exclusion act	505.50	
		6,119.96
Leaving the net cost of collection		4,127,601.16

PERCENTAGE OF COST OF COLLECTION.

The percentage of cost of collection is 2.88 per cent. The expenses for the previous fiscal year were $3,975,904, or 2.70 per cent of the collections for that year, the figures indicating a slight increase in the percentage of cost for the fiscal year just ended. Deducting both the receipts and the expenditures involved in the enforcement of that portion of the act of August 28, 1894, relating to the tax upon incomes, the percentage of cost of collection for the fiscal year ended June 30, 1895, would be reduced to 2.81.

FOR DETECTING AND PUNISHING VIOLATIONS OF LAW.

The amount appropriated for the purpose of detecting and bringing to punishment persons guilty of violating the internal-revenue laws, for the fiscal year ended June 30, 1895, was $50,000. This sum has already been exhausted by the expenses incurred in this direction, and an additional sum of $700 will be required for the payment of pending claims.

AMOUNT EXPENDED UNDER "CHINESE EXCLUSION ACT."

By the act approved November 3, 1893, to prohibit the coming of Chinese persons into the United States, the duty of registering Chinese laborers was imposed upon this Bureau. While this work was practically completed May 3, 1894, there still remained some clerical work to be performed in several of the larger districts, and the amount paid for such services up to the close of the fiscal year ended June 30, 1895, was $505.50, leaving unexpended on the 1st day of July, 1895, the sum of $16,595.14 of the $60,000 originally appropriated for this purpose.

MISCELLANEOUS EXPENSES.

The act of Congress approved August 7, 1882, making provision for sundry civil expenses for the year ended June 30, 1883, required the Commissioner of Internal Revenue to make a detailed statement of all miscellaneous expenditures in the Bureau of Internal Revenue for which appropriation was made in that act. In accordance with this requirement, I submit the following detailed statement of miscellaneous expenses incurred:

Telegraphing on public business	$1,158.81
Locks for use at distilleries	2,892.14
Hydrometers used in gauging spirits	6,453.95
Weighing beams for use in weighing spirits	1,786.85
Expenses of testing spirits weighed, labor, etc	150.20
Steel canceling dies	500.00
Saccharometers and chemicals for testing sweet-wine samples and oleomargarine	216.52
Stationery for internal-revenue officers	428.21
The Internal Revenue Record supplied to internal-revenue officers	2,200.00
The Federal Reporter for the office of the Commissioner of Internal Revenue	14.00
Compensation of United States attorneys in internal-revenue cases allowed under sections 827 and 838, Revised Statutes	310.00
Traveling expenses of clerks and chemist under special orders of the Department	291.13
Expenses of seizures and sales by collectors	824.26
Total	17,226.07

ESTIMATED EXPENSES FOR NEXT FISCAL YEAR.

I estimate the expenses of the Internal-Revenue Service for the fiscal year ending June 30, 1897, as follows:

For salaries and expenses of collectors, including pay of deputy collectors and clerks, and expense of enforcing the act of August 2, 1886, taxing oleomargarine, and the act of August 4, 1886, imposing on the Government the expense of the inspection of tobacco exported	$1,850,000
For salaries and expenses of 20 revenue agents, for surveyors, for fees and expenses of gaugers, for salaries of storekeepers, and for miscellaneous expenses	2,150,000
For paper for internal-revenue stamps	60,000
For detecting and bringing to trial and punishment persons guilty of violating the internal-revenue laws, including payment for information and detection	60,000
For salaries of officers, clerks, and employés in the office of the Commissioner of Internal Revenue	259,090
Total	4,379,090

SALARIES.

I have the honor to recommend that Congress appropriate for the fiscal year ending June 30, 1897, the sum of $259,090 as salaries for the following officers, clerks, and employés in this Bureau:

One Commissioner, at	$6,000
One Deputy Commissioner, at	3,200
One chemist, at	2,500
Two heads of division, at	2,500
Five heads of division, at	2,250
One superintendent of stamp vault, at	2,000
One stenographer	1,800
Twenty-four clerks, at	1,800
Twenty-four clerks, at	1,600

Thirty-four clerks, at	$1,400
Twenty-four clerks, at	1,200
Thirteen clerks, at	1,000
Forty clerks, at	900
Two messengers, at	840
Fourteen assistant messengers, at	720
Thirteen laborers, at	660

An aggregate of 200 persons.

I also recommend the appropriation of the sum of $2,500 as salaries for one stamp agent at $1,600 and one counter at $900, the same to be reimbursed by the stamp manufacturers, as provided by the act of August 5, 1882.

SCALE OF SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors are based upon an estimate of their probable collections according to the following scale, with the qualification that if the actual collections should vary from the amounts estimated, the salaries will be readjusted at the end of the fiscal year:

For collection of—	Salary.	For collection of—	Salary.
$25,000 or less	$2,000	$375,001 to $425,000	$3,375
25,001 to $37,500	2,125	425,001 to 475,000	3,500
37,501 to 50,000	2,250	475,001 to 550,000	3,625
50,001 to 75,000	2,375	550,001 to 625,000	3,750
75,001 to 100,000	2,500	625,001 to 700,000	3,875
100,001 to 125,000	2,625	700,001 to 775,000	4,000
125,001 to 175,000	2,750	775,001 to 850,000	4,125
175,001 to 225,000	2,875	850,001 to 925,000	4,250
225,001 to 275,000	3,000	925,001 to 1,000,000	4,375
275,001 to 325,000	3,125	1,000,001 and upward	4,500
325,001 to 375,000	3,250		

OFFICIAL FORCE.

The force connected with this Bureau during the fiscal year which ended June 30, 1895, in the various districts throughout the United States, as reorganized under the Executive order of May 21, 1887, was 63 collectors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
33	$4,500	2	$3,625	4	$2,875
4	4,375	3	3,500	4	2,750
2	4,250	4	3,375	1	2,500
1	4,000	2	3,250		
2	3,875	1	3,125		

There were also employed 963 deputy collectors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
22	$2,000	34	$1,300	9	$500
11	1,900	169	1,200	1	480
33	1,800	127	1,100	1	425
1	1,750	136	1,000	11	400
10	1,700	2	950	4	360
31	1,600	64	900	27	300
2	1,550	4	850	3	250
59	1,500	23	800	2	240
9	1,450	1	750	7	200
119	1,400	5	700	4	150
1	1,350	25	600	6	120

There were also employed in the offices of the different collectors 185 clerks, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
1	$1,800	8	$1,150	9	$700
2	1,600	6	1,100	2	650
3	1,500	30	1,000	11	600
9	1,400	34	900	1	500
4	1,300	18	800	1	400
1	1,250	5	750		
38	1,200	2	720		

Also 27 porters, messengers, or janitors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
6	$600	3	$300	1	$120
2	500	2	240	1	100
5	480	1	200		
5	400	1	180		

In addition to the foregoing, there were also employed for limited periods, 8 persons, in duties solely connected with the execution of the provisions of the act of October 1, 1890, relating to the payment of bounty on sugar produced, as shown more in detail in that part of this report relating to that subject.

At the close of the year ended June 30, 1895, 221 officers, clerks, messengers, and laborers were employed in this Bureau, and the aggregate amount paid during the year for their salaries was $267,901.07

STOREKEEPERS, GAUGERS, ETC.

There were also employed 630 gaugers, who received fees not to exceed $5 per day; 400 storekeepers, and 1,602 storekeepers and gaugers, whose pay did not exceed $4 per diem, and 5 distillery surveyors. All the foregoing officers are paid only when actually employed.

Storekeepers are assigned to those distilleries only which have a surveyed daily capacity exceeding 100 bushels, and are paid such compensation as may be prescribed by the Commissioner of Internal Revenue, not to exceed $4 per day.

Storekeepers and gaugers are assigned to distilleries having a capacity of 100 bushels or less, which are in operation, and to distilleries of a capacity not exceeding 500 bushels, when under suspension.

Under the act of August 28, 1894, storekeepers and gaugers may now be assigned to perform the separate duties of a storekeeper at any distillery, or at any general or special bonded warehouse, or to perform any of the duties of a gauger, under the internal-revenue laws.

The very material increase in the number of storekeepers and gaugers results from the change made in the law providing for the asignment of these officers to the separate duties of the combined office. This has resulted in a material saving in the expense for that service.

The pay of storekeepers and gaugers assigned to distilleries whose registered daily capacity is 20 bushels or less, is fixed by law at $2 per diem. The pay of those assigned to larger distilleries has been graded according to the following scale:

Compensation of storekeepers and gaugers assigned to distilleries in operation having a surveyed daily capacity exceeding 20 bushels, and not exceeding 40 bushels, $3 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 40 bushels, and not exceeding 60 bushels, $3.50 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 60 bushels, $4 per day.

The compensation of such officers assigned to distilleries under suspension having a surveyed daily capacity not exceeding 20 bushels, and having not exceeding 5,000 gallons of spirits in the distillery warehouse, is $2, for such days only as the officer is required to be in attendance to make withdrawals of spirits, or for other necessary purposes; when the quantity of spirits in warehouse of a suspended distillery having a daily capacity not exceeding 500 bushels, exceeds 5,000 gallons, and does not exceed 25,000 gallons, the compensation is $2 per day of constant attendance; when the quantity exceeds 25,000 and does not exceed 100,000 gallons, $3 per day; and when the quantity exceeds 100,000 gallons, $4 per day.

GENERAL CONDITION OF THE OFFICE AND THE SERVICE.

The work of the Bureau, both in the office and in the field, is in good condition, and it affords me very great pleasure to commend the efficiency, industry, and competency of the officers, clerks, and employés in the several branches of the service, which has resulted in the prompt and accurate disposal of all the business of the Bureau up to date.

The accounts for expenditures under this appropriation are rendered monthly, with an itemized statement, and in all cases supported by proper subvouchers duly sworn to. These accounts pass through all the accounting offices in the Treasury Department and are filed in the Register's office.

INTERNAL-REVENUE INSPECTORS.

Under the authority conferred by the provisions of the legislative act of March 3, 1891, eleven inspectors were employed on work incident to the payment of the bounty on sugar, at a compensation of $5 per day while actually employed, and their necessary expenses. The services of eight of these inspectors were dispensed with after August 4, 1894, and three inspectors were retained until the close of the calendar year 1894, their services being required to complete the unfinished business pertaining to sugar bounty work.

STAMP DIVISION.

The statements under the above heading relate to the receipt, custody, and issue of all of the internal-revenue stamps of the Government and the transactions growing out of the manufacture of the paper, the production of the stamps, and the receipt and issue of the same by this office.

MANUFACTURE OF STAMP PAPER.

After due advertisement for proposals to furnish stamp paper for the fiscal year ending June 30, 1896, four sealed bids were presented, which were opened on the 20th day of April, 1895, in the office of the Commissioner of Internal Revenue, by a committee appointed by the honorable Secretary of the Treasury to open and consider such bids as might be presented. Samples of the paper to be furnished were submitted with each of the bids, and after the same were scheduled and classified, and the samples submitted to the usual mechanical tests, an award of contract was recommended by the committee to the lowest bidder whose sample stood a satisfactory test as compared with the others.

After some correspondence and a personal interview between this office and the lowest bidder above referred to, it was found that the paper proposed could not be furnished satisfactorily to the Government, and the contract was therefore duly awarded, on the 10th day of May, 1895, to the New York and Pennsylvania Company, of New York, at 4.6 cents per pound, including cost of transportation and delivery at the Treasury Department, this being a reduction of four-tenths of 1 cent per pound from the former contract price, which was 5 cents per pound.

PRODUCTION OF STAMPS.

All stamps used by this Bureau are printed and engraved by the Bureau of Engraving and Printing, with the exception of stamps for tobacco imprinted on foil wrappers, which have been printed and furnished by the John J. Crooke Company, of New York, under a contract which provides that the imprinting of such stamps shall be without cost to the Government, the contractors receiving such remuneration from the manufacturers of tobacco as may be agreed upon between them, and reimbursing the Government for the salaries of one stamp agent for the United States and one counter, amounting to $2,500 per annum.

INCREASE OF STAMP VALUES RESULTING UNDER TARIFF ACT OF AUGUST 28, 1894.

Under the provisions of the act of Congress approved August 28, 1894, the tax rate per gallon on distilled spirits was increased from 90 cents to $1.10 per gallon, and nine one-tenth-gallon coupons were added to the tax-paid stamps for distilled spirits. Immediately after the passage of the act, in order to provide against any interruption of current business, and to supply owners of spirits with tax-paid stamps without delay, the entire stock of such stamps in the vault was imprinted as rapidly as possible by the use of hand stamps, under the supervision of a special committee appointed for that purpose by the Secretary of the Treasury.

Collectors were also instructed to imprint, by the use of hand stamps, all of the tax-paid stamps issued by them on and after August 28, 1894, and to make assessments for the fractional parts of gallons, so as to conform to the increased rate of taxation.

This increase of 20 cents per gallon in the tax on spirits and the addition of the fractional coupons to the stamps necessitated the return to this office by collectors of all the stamps of Series R, 1878, in their hands, for the purpose of imprinting the gallon and fractional gallon coupons and their reissue at the new rate. To accomplish this all stamps were received into the vault, and, together with those of

same class and denomination in stock, were forwarded to the Bureau of Engraving and Printing and were there properly imprinted.

The increased labor imposed upon the stamp division by this increase in the tax rate and alteration of the stamps was accomplished successfully and without a moment's delay in the current work or any inaccuracies in the accounts of the division.

NEW CLASSES OF STAMPS ADDED UNDER TARIFF ACT.

There have been added to the stock of stamps regularly kept in the vault the following new classes and denominations, viz: (*a*) General bonded-warehouse transfer; (*b*) general bonded-warehouse retransfer; also the two classes of 2-cent stamps representing the tax on playing cards as embodied in the internal-revenue schedule of the act of August 28, 1894, one class denominated as "Stock on hand," to be affixed by dealers to all cards in stock and on hand when the law imposing the tax first took effect, and the other as "Manufacturer's," to be affixed by manufacturers to each pack of cards manufactured and sold by them.

STOCK OF STAMPS IN VAULT.

The stock of stamps on hand in the vault October 1, 1895, of the various classes and denominations, is 126,722,664, and the value of the same is $57,266,359.29.

This is very much below the estimated three months' supply which the statute requires to be kept in the vault; but the inability to maintain the stock at statutory requirement is due entirely to the failure of the Bureau of Engraving and Printing to deliver the stamps ordered by this Bureau, and not to any official neglect on the part of this office. The statement of the Bureau of Engraving and Printing of October 1, 1895, shows a balance due on past orders of 154,690,100 stamps, and the orders for October delivery amount to 102,462,000.

REDEMPTION OF CHECK AND PROPRIETARY STAMPS.

Since July 1, 1894, and prior to June 30, 1895, 80 applications for redemption of check and proprietary stamps have been received for consideration, the aggregate value of amounts claimed being $147.57 and the various sums stated ranging from 4 cents to $20. The time allowed by law for the redemption of these classes of stamps having expired June 30, 1886, under the limitation imposed by section 17 of the act of March 1, 1879, the claims were rejected and the stamps forwarded therewith were returned to the applicants.

THE TABULAR STATEMENTS.

In the tables annexed will be found statements showing the manner in which the manufacturing is distributed among the different States and districts, the number of persons and firms engaged in each of the two branches of manufacturing, the quantity of different kinds of materials used, and the quantity and kinds of product manufactured. These tables are compiled from the reports received from the collectors of internal revenue of the transactions of manufacturers in their several districts for the calendar year ended December 31, 1894, a period of time differing from the fiscal year ended June 30, 1895, which will account for any apparent discrepancies between them and the previous part of the report relating to tobacco.

NOTE.—In the case of retail dealers in oleomargarine, the number of places where oleomargarine is sold or offered for sale is sometimes in excess of the number of persons who pay special taxes as retail dealers in oleomargarine. This is accounted for from the fact that one retail dealer, in some cases, pays more than one special tax for the privilege of offering oleomargarine for sale at more than one store or place of business.

STATEMENT SHOWING, BY STATES AND TERRITORIES, THE ACTUAL NUMBER OF THE DIFFERENT KINDS OF SPECIAL-TAX PAYERS FOR THE FISCAL YEAR ENDED JUNE 30, 1895.

COMPARATIVE STATEMENT OF DISTILLERIES REGISTERED AND OPERATED.

The whole number of grain distilleries registered during the fiscal year ended June 30, 1895, was 1,949, of which number 1,621 were operated.

The numbers registered and operated during the fiscal year ended June 30, 1894, were 1,964 and 1,541, respectively, showing a decrease during the last fiscal year of 15 in the number registered, and an increase of 80 in the number operated.

The larger portion of the decrease in the number registered occurred in the class of distilleries having the smaller capacities for the production of spirits, there having been a decrease of 10 in the number of distilleries of this class registered, although there was an increase of 51 in the number operated.

In the class of larger distilleries there was a decrease of 5 in the number registered, but an increase of 29 in the number operated.

During the fiscal year ended June 30, 1894, there were registered 1,693 distilleries of the smaller class, varying in daily grain capacity from not over 5 to not over 60 bushels each, and of this number 1,334, or 78+ per cent, were operated.

Of the larger distilleries, having daily grain capacities varying from over 60 bushels to several thousand bushels each, 271 were registered, and 207, or 76+ per cent, were operated.

During the fiscal year ended June 30, 1895, of the smaller distilleries 1,683 were registered, and 1,385, or 82+ per cent, were operated.

Of the larger distilleries 266 were registered, and 236, or nearly 89 per cent, were operated.

There were 12 molasses distilleries registered and 11 operated, a decrease of 1 in the number reported operated for the previous fiscal year.

There were only 920 fruit distilleries registered and but 797 operated, a decrease from the previous year of 2,713 in the number registered and of 2,798 in the number operated during the fiscal year.

The total number of grain, molasses, and fruit distilleries registered and operated during the year is 2,881 and 2,429, respectively.

There was a decrease of 2,728 in the number of all kinds of distilleries registered and of 2,719 in the number of all kinds operated during the fiscal year ended June 30, 1895, as compared with the fiscal year ended June 30, 1894.

The average yield per bushel of grain was $\frac{78,172,512}{18,057,107} = 4.32+$ gallons of spirits. The average yield per gallon of molasses was $\frac{1,777,083}{2,219,547} = 0.800+$ of a gallon of rum.

Three million five hundred and eighty-three thousand two hundred and sixty-four gallons of molasses were used for the production of spirits instead of rum; and their equivalent, estimated in bushels of grain, is added to the total grain in determining the yield per bushel of grain.

The quantity of grain used for the production of spirits during the fiscal year ended June 30, 1895 (18,057,107 bushels, including 557,396 bushels, which is the equivalent of 3,583,264 gallons of molasses, used for the production of spirits), shows a decrease of 1,659,711 bushels from the amount used in the preceding fiscal year (19,716,818 bushels), and is 3,854,196 bushels less than the average (21,911,303 bushels), for the last ten years. The number of gallons of spirits produced from grain during the year (78,172,512 gallons) shows a decrease of 9,168,385 gallons from the product (87,340,897 gallons) for the year ended June 30, 1894, and is 15,573,664 gallons less than the average product (93,746,176 gallons) for the last ten years.

The yield of spirits from each bushel of grain is 4.32+ gallons.

The yield for the two preceding years was 4.35+ gallons for 1893, and 4.42+ gallons for 1894.

The quantity of molasses used for the production of rum during the fiscal year (2,219,547 gallons) shows a decrease of 378,862 gallons from the quantity used in the previous year (2,598,409 gallons), and is 172,321 gallons less than the average (2,391,868 gallons) for the last ten years.

The quantity of rum distilled from molasses during the fiscal year (1,777,083 gallons), shows a decrease of 87,512 gallons from the product of the previous year (1,864,595 gallons), and is 39,552 gallons less than the average product (1,816,635 gallons) for the last ten years.

DIVISION OF ASSESSMENTS.

The following statements relative to assessments, to spirits deposited in and withdrawn from distillery warehouses, general bonded warehouses, and special bonded warehouses, the number and location of each of such warehouses, and the names of the proprietors thereof; to the stock of spirits in the United States October 1, 1895; to the exportation of spirits, fermented liquors, tobacco, snuff, cigars, and cigarettes, and playing cards in bond; to the exportation of tobacco, cigars, fermented liquors, and stills, with benefit of drawback; to the use of grape brandy, tax free, in fortifying wines, are prepared from reports in the division of assessments.

The statements relative to assessments are to be found on this page and the page following; statements relative to operations in distillery warehouses commence on page 72 (see also special index on page 71); to operations in general bonded warehouses, on page 144, and in special bonded warehouses on page 167; to exportations in bond free of tax from special bonded warehouses, on page 171; as to tobacco, snuff, cigars, and cigarettes, on page 175; to exportations with benefit of drawback, on page 176, and to the use of brandy in fortifying wines, on page 174.

It will be observed that in the following table this stamp tax on playing cards and the tax on incomes assessed in 1895 are in excess of such assessments in 1894. This is due to the fact that these taxes were imposed by the revenue act of August 28, 1894.

The tax on playing cards was imposed by sections 38 to 47 of said act, is payable by stamp, and is only assessable when not paid by stamp as required by law.

The income tax was imposed by sections 27 to 37 of said act, and, under the terms of the act, was to be assessed. The Supreme Court having decided the act to be unconstitutional, no assessments were made except in cases where the tax had been paid prior to May 20, 1895, the date on which the decision was rendered. This is the amount reported in the subjoined table:

ASSESSMENTS.

TABLE SHOWING THE SERIAL NUMBER, NAME OR NAMES OF THE DISTILLER, AND LOCATION OF EACH DISTILLERY WAREHOUSE IN THE UNITED STATES IN WHICH SPIRITS WERE HELD ON DEPOSIT IN THE FISCAL YEAR ENDED JUNE 30, 1895.

[NOTE.—In column No. 2 the letters indicate transactions during the fiscal year as follows: "D" indicates that spirits were deposited in the warehouse; "T" that they were withdrawn upon payment of the tax; "S" that they were withdrawn for scientific purposes or for the use of the United States; "E" that they were withdrawn for export; "M" that they were withdrawn for transfer to manufactering warehouses; "G" that they were withdrawn for transfer to general bonded warehouses, and "W" that spirits remained in the warehouse at the close of the year. The name and address stated in columns 1, 4, and 5 are those given by the storekeeper in his reports relative to the distillery warehouse. In column 6 the section of the State in which the warehouse is located is indicated by the letters used to designate points of the compass, except that the letter C indicates the central portion of the State.]

DECREASED WITHDRAWAL OF TAX-PAID SPIRITS.

The quantity of tax-paid spirits (74,176,239.5 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1895, is less than the quantity (87,087,618 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1894, by 12,911,378.5 gallons, the decrease being distributed among the different kinds known to the trade as follows:

		Gallons.
Decrease in withdrawals of—		
Bourbon whisky		4,684,045
Rye whisky		3,031,726
Alcohol		586,945.2
Gin		80,595.7
Pure, neutral, or cologne spirits		6,128,804.4
Total decrease		14,512,116.3
Increase in withdrawals of—		
Rum	54,694.1	
High wines	165,331.2	
Miscellaneous	1,380,712.5	
Total increase		1,600,737.8
Net decrease		12,911,378.5

If the quantity, 1,602,401 gallons (as stated by the Chief of the Bureau of Statistics), of exported domestic spirits reimported during the year upon payment of a customs duty equal to the internal-revenue tax be added, the quantity virtually withdrawn from distillery warehouses during the year ended June 30, 1895, is found to be 75,778,640.5 gallons, or 12,008,914.5 gallons less than during the year 1894, including the 699,937 gallons reimported and tax-paid during that year.

There were also tax-paid withdrawals of spirits from general bonded warehouses amounting to 364,329.5 gallons which should be added to the above, making the total domestic spirits, exclusive of fruit brandy, withdrawn from bond on payment of the tax, or of a duty equal to the tax, 76,102,970 gallons, or 11,644,585 gallons less than the quantity so withdrawn during the fiscal year ended June 30, 1894.

The tax actually paid on spirits withdrawn from distillery warehouses and general bonded warehouses and on reimported domestic spirits was as follows:

Year ended June 30, 1894	$79,008,799.50
Year ended June 30, 1895	75,964,175.45
Decrease in 1895	3,044,624.05

The relatively favorable showing as to receipts as compared with withdrawals is due to the increased rate of tax under the act of August 28, 1894, from 90 cents per gallon to $1.10 per gallon.

WITHDRAWAL OF PRODUCTS BY MONTHS.

The quantity of each month's product of spirits in warehouses July 1, 1894, which was withdrawn during the year ended June 30, 1895, is shown in the following statement:

[In taxable gallons.]

Product of—	In warehouse July 1, 1894.	Withdrawn during the year ended June 30, 1895.	Remaining in warehouse June 30, 1895.

SPIRITS REMOVED IN BOND FOR EXPORT.

The following statement shows the quantity and percentage of production of distilled spirits removed in bond for export during each fiscal year since the passage of the act of June 6, 1872:

Year.	Taxable (proof) gallons exported.	Percentage of production.	Year.	Taxable (proof) gallons exported.	Percentage of production.

THE EXPORTATION OF DISTILLED SPIRITS IN BOND IN SMALL PACKAGES.

It is noted that a large proportion of all liquors imported into the United States is in bottles or other small packages; also that nearly all the fermented liquors exported from the United States in bond is in bottles; whereas all distilled spirits exported must, in accordance with law, be in the distillers' casks, each of not less than 10 gallons capacity. The attention of this office has repeatedly been called to this discrimination against the products of American distillers, and it has been urged that if spirits were allowed to be bottled in bond, each bottle to have affixed thereto an engraved stamp bearing the signature of the collector, a large export trade would be secured.

The cost of preparing and affixing stamps to be borne by the Government has heretofore been an insuperable objection to the adoption of the proposition.

This office, however, recommends the passage of an act authorizing the bottling of spirits in bond if the expense of preparing and affixing the stamps is otherwise provided for.

SPIRITS LOST BY FIRE IN WAREHOUSES FOR THE LAST TWENTY-THREE YEARS.

The following statement shows the quantity of spirits lost in distillery warehouses by fire during each of the last twenty-three calendar years. As it shows also the stock of spirits in warehouse at the close of each of the fiscal years 1872 to 1894, both inclusive, the percentage of loss on stock held may be readily computed:

[Quantities in taxable gallons.]

Year.	In bond June 30.	Total loss.	Year.	In bond June 30.	Total loss.
1872	10,103,392	28,399	1885	54,724,916	109,030

1883	80,499,993	396,299	Total	1,365,258,086	5,333,122.5
1884	63,502,551	416,609			

[Average loss, $\frac{39}{100}$ of 1 per cent.]

The loss during the six months ended June 30, 1895, was 8,358.9 gallons, the stock on hand June 30, 1895, being 136,402,552.1 gallons.

There has not yet been any loss of distilled spirits by fire in any special bonded warehouse established under act of March 3, 1877, nor in any general bonded warehouse established under act of August 28, 1894.

ALCOHOL USED IN THE ARTS AND IN MEDICINAL AND OTHER COMPOUNDS.

Informal claims for refund of tax on 317,890 proof gallons of alcohol used or to be used in the arts and in medicinal or other similar compounds have been so far received from 193 claimants. The amount claimed has not always been stated, but in the absence of regulations in the matter no inquiry has been made in such cases, but it is believed that the tax on this quantity is, on the average, not less than $1 per gallon.

A large proportion of these claimants are manufacturers of patent medicines. Quite a considerable number, however, of persons using alcohol in other manufactures, including the manufacture of mince meat, candy, and glue, are among the claimants.

In the absence of regulations of this Department and of any specific provision of the act to the effect that the Commissioner of Internal Revenue is the proper officer with whom such claims should be filed, and in the absence of claims from the principal manufacturing chemists of the United States, the above figures can not be regarded as signifying the amount by which the United States Treasury would be depleted in case section 61 of the act of August 28, 1894, should be so amended as to be practically operative. I see no reason as yet for reducing my estimate of this amount below that already given, namely, $10,000,000 annually.

NOTE.—Under internal-revenue laws in force August 27, 1894, the taxable gallons in each cask or package of spirits comprised the whole number of gallons, as defined by section 3251, Revised Statutes, as amended, *and any fractional part of a gallon less than one-half gallon in any cask or package was exempt from tax.* Under the provisions of section 48 of the act of August 28, 1894, however, the number of taxable gallons in each cask is the number of whole gallons and tenths of gallons therein. Hence, the taxable quantity in each cask in warehouse at the close of business August 27, 1894, as to which the fraction had been dropped because it was less than five-tenths of a gallon was increased by the number of tenths so dropped. This necessitated an addition to the quantity in warehouse, which had been ascertained under the rule laid down in section 3251, Revised Statutes. The quantity added, as given in this statement, includes, however, other items, as follows: Upon making the examination in each warehouse, made necessary by the provisions of the act of August 28, 1894, it was discovered that in some cases, while the quantity of spirits of all kinds was correctly stated, the quantity of certain kinds was understated, and the quantity of certain other kinds was correspondingly overstated. Where the quantity of any particular kind was understated the quantity was added and is included in the above statement.

ATEMENT OF THE QUANTITY, IN TAXABLE GALLONS AND BY KINDS, OF SPIRITS DEDUCTED PURSUANT TO THE PROVISIONS OF THE REVENUE ACT OF AUGUST 28, 1894, FROM THE QUANTITY IN DISTILLERY WAREHOUSES JUST PRIOR TO THE PASSAGE OF THAT ACT.

NOTE.—Under internal-revenue laws in force August 27, 1894, the taxable gallons in each cask or package of spirits comprised the whole number of gallons as defined by section 3251, Revised Statutes, as amended, *and any fractional part of a gallon amounting to one-half gallon or over in any cask or package was taxed as a gallon.* Under the provisions of section 48 of the act of August 28, 1894, however, the number of taxable gallons in each cask is the number of whole gallons and tenths of gallons therein. Hence, the taxable quantity in each cask in warehouse at the close of business August 27, 1894, as to which the fraction had been called a whole gallon because it was five-tenths of a gallon or more, was decreased by the number of tenths actually added under the arbitrary rules fixed by section 3251, Revised Statutes. This necessitated a deduction from the quantity in warehouse which had been ascertained under the rule laid down in section 3251, Revised Statutes. The quantity deducted as given in the above statement includes, however, other items, as follows: Upon making the examination of each warehouse, found to be necessary by the provisions of the act of August 28, 1894, it was discovered that in some cases, while the quantity of spirits of all kinds was correctly stated, the quantity of certain kinds was understated and the quantity of certain other kinds was correspondingly overstated. Where the quantity of any particular kind was overstated the quantity was deducted and is included in the above statement of deductions.

OLEOMARGARINE.

The following statements, showing operations under the act of August 2, 1886, defining butter and imposing a tax upon and regulating the manufacture, sale, importation, and exportation of oleomargarine, comprise—

First. A summary of operations at oleomargarine manufactories during the fiscal year ended June 30, 1895; also a summary of operations during the past two fiscal years, and by months covering the period from November 1, 1886, to June 30, 1895.

Second. A statement of the receipts from all classes of taxes imposed by the oleomargarine law, for the year ended June 30, 1895.

Third. A statement by States and Territories showing the number of establishments for which special tax was paid to carry on during the fiscal year ended June 30, 1895, the business of manufacturing and dealing in oleomargarine; also, in aggregate, of all persons who paid oleomargarine special taxes for the twelve months ended June 30, 1894.

Fourth. A statement of the total production and of total receipts from all oleomargarine sources for each fiscal year since the oleomargarine law took effect.

It appears from the subjoined table that the average monthly production of oleomargarine under the operations of the law has been as follows:

	Pounds.
During the eight months ended June 30, 1887	2,711,828
During the fiscal year ended June 30—	
1888	2,860,460
1889	2,972,002
1890	2,693,669
1891	3,699,367
1892	4,030,346
1893	5,602,024
1894	5,801,853
1895	4,746,508

It also appears that the average monthly quantity withdrawn from factories on payment of the tax was as follows:

	Pounds.
During the eight months ended June 30, 1887	2,592,946
During the fiscal year ended June 30—	
1888	2,707,430
1889	2,821,970
1890	2,566,494
1891	3,601,292
1892	3,909,625
1893	5,371,989
1894	5,508,004
1895	4,469,686

The average quantity withdrawn monthly for exportation during the same time is shown to have been as follows:

	Pounds.
During the eight months ended June 30, 1887	90,566
During the fiscal year ended June 30—	
1888	140,516
1889	145,746
1890	134,866
1891	102,426
1892	107,981
1893	232,124
1894	283,890
1895	278,123

In the fiscal years 1887 and 1888 the largest production month was March; in the fiscal year 1889, December; in the fiscal year 1890, October; in the fiscal year 1891, March; in the fiscal year 1892, March; in the fiscal year 1893, January; in the fiscal year 1894, October; while the greatest production during the fiscal year ended June 30, 1895, occurred in October. The quantity produced during these months was as follows:

	Pounds.
In March, 1887	3,568,254
In March, 1888	3,940,727
In December, 1888	4,181,317
In October, 1889	4,072,333
In March, 1891	6,723,224
In March, 1892	5,916,871
In January, 1893	7,824,657
In October, 1893	9,318,006
In October, 1894	7,046,429

The months in which the production fell below 2,000,000 pounds were as follows:

	Pounds.
During the fiscal year ended June 30, 1887:	
May, 1887, produced	1,885,027
June, 1887, produced	1,375,423
During the fiscal year ended June 30, 1888:	
July, 1887, produced	1,208,638
During the fiscal year ended June 30, 1889:	
June, 1889, produced	1,575,362
During the fiscal year ended June 30, 1890:	
July, 1889, produced	1,404,749
August, 1889, produced	1,975,773
May, 1890, produced	1,864,746
June, 1890, produced	1,364,826
During the fiscal year ended June 30, 1891:	
July, 1890, produced	1,723,966
June, 1891, produced	1,988,633

There was a decrease in the number of persons engaged in the sale of oleomargarine during the fiscal year ended June 30, 1895, as well as a decrease in the production of the article.

The following table shows the quantity of oleomargarine, in pounds, at 2 cents tax, produced at manufactories during the fiscal year ended June 30, 1895, the quantity withdrawn therefrom during the year, and the stock of oleomargarine remaining in factories June 30, 1895:

SUMMARY OF OPERATIONS AT OLEOMARGARINE MANUFACTORIES DURING THE FISCAL YEAR ENDED JUNE 30, 1895.

	Pounds.

SUGAR BOUNTY.

During the fiscal year ended June 30, 1895, there were received at this office 567 applications and bonds of cane, beet, and sorghum sugar producers. These applications and bonds were approved by the Commissioner, and 154 licenses were issued previous to the repeal of the bounty law August 28, 1894.

During this fiscal year, prior to August 28, $966,185.84 were paid upon domestic sugars produced previous to July 1, 1894, as follows:

Cane sugar	$957, 644. 41
Beet sugar	8, 056. 99
Sorghum sugar	129. 50
Maple sugar	354. 94
Total	966, 185. 84

At the date of the repeal of the bounty law, August 28, 1894, certain sugar producers had completed the production of their sugar and presented claims for bounty, and these claims at that date remained unpaid.

These claims were classified as follows:

Claim.	Number of claims.	Amount.
Maple	4, 540	$121, 783. 09
Beet	8	86, 780. 72
Cane	24	29, 286. 47
Sorghum	1	436. 00
Total	4, 573	238, 286. 28

The above claims are distributed throughout the United States in the sugar producing districts as follows:

The act of Congress approved March 2, 1895, entitled "An act making appropriations for sundry civil expenses of the Government for the fiscal year ending June 30, 1896, and for other purposes," appropriates $238,289.08 to cover the amount of these claims.

These claims have been approved by the Commissioner of Internal Revenue and referred to the Auditor for the Treasury Department.

BOUNTY ON SUGAR PRODUCED IN THE FISCAL YEAR ENDED JUNE 30, 1895.

The act of March 2, 1895, also provides—

That there shall be paid to those producers who complied with the provisions of the bounty law as contained in Schedule E of the tariff act of October first, eighteen hundred and ninety, by filing the notice, application for license, and bond therein required, prior to July first, eighteen hundred and ninety-four, and who would have been entitled to receive a license as provided for in said act, a bounty of eight-tenths of a cent per pound on the sugars actually manufactured and produced in the United States testing not less than eighty degrees by the polariscope, from beets, sorghum, or sugar cane grown or produced within the United States during that part of the fiscal year ending June thirtieth, eighteen hundred and ninety-five, comprised in the period commencing August twenty-eighth, eighteen hundred and ninety-four, and ending June thirtieth, eighteen hundred and ninety-five, both days inclusive; and for this purpose the sum of five million dollars, or so much thereof as may be necessary, is hereby appropriated: *Provided*, That no bounty shall be paid to any person engaged in refining sugars which have been imported into the United States, or produced in the United States upon which the bounty herein provided has already been paid or applied for.

The bounty herein authorized to be paid shall be paid upon the presentation of such proof of manufacture and production as shall be required in each case by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, and under such rules and regulations as shall be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. And for the payment of such bounty the Secretary of the Treasury is authorized to draw warrants on the Treasurer of the United States for such sums as shall be necessary, which sums shall be certified to him by the Commissioner of Internal Revenue, by whom the bounty shall be disbursed, and no bounty shall be allowed or paid to any person as aforesaid upon any quantity of sugar less than five hundred pounds. * * *

That any person not entitled to the bounty herein provided for, who shall with intent to defraud apply for or receive the same, shall be guilty of a misdemeanor, and, upon conviction thereof, shall pay a fine not exceeding five thousand dollars, or be imprisoned for a period not exceeding five years, or both, in the discretion of the court.

Regulations concerning the presentation of claims and payment of bounty under this act were prepared by this office and approved by the Secretary of the Treasury on the 18th day of June, 1895.

These regulations were published and transmitted to the several collectors of internal revenue in the sugar-producing districts.

The office blanks and forms relative to claims and accounts of manufacture and production were also prepared and forwarded to the collectors for the use of sugar producers.

In addition to the foregoing work the names of persons who had complied with the act of October 1, 1890, were collected, and their accounts were opened.

In the district of Louisiana 534 producers of sugar from cane (including companies and corporations) complied with the provisions of that act, and of this number 473 have filed their several claims for bounty, which amount in the aggregate to $5,591,617.94. Sixty-one sugar producers from this district have not made any claims for bounty for the reason that they sold their cane or sirup to other licensed producers, and did not retain any interest in the sugar produced from such cane or sirup, or for other causes.

In the State of Texas 13 cane-sugar producers complied with the bounty law, and each has presented a claim for bounty. These claims amount in the aggregate to $123,812.64.

In the State of Florida 12 producers of cane sugar complied with the law. Nine of these producers have presented claims for bounty amounting in the aggregate to $5,655.72.

In the first district of California 3 companies—the Western Beet Sugar Company, Alameda Sugar Company, and Chino Valley Beet Sugar Company, all producers of sugar from beets—have presented their several claims for bounty, which amount in the aggregate to $293,208.97.

In the State of Nebraska the Norfolk Beet Sugar Company and the Oxnard Beet Sugar Company each complied with the law. The Oxnard Company did not produce any sugar subsequent to August 27, 1894. The Norfolk Company has filed a claim for bounty amounting to $45,087.80.

In the State of Kansas the Medicine Lodge Sugar Company and the Parkinson Sugar Company, manufacturers of sugar from sorghum, complied with the law and have filed their several claims for bounty, which amount in the aggregate to $6,259.72.

In the district of Montana the Utah Sugar Company, of Utah Territory, manufacturers of beet sugar, complied with the law and presented a claim for $45,862.65.

The foregoing statements show the whole number of sugar producers who have presented claims for bounty and the total amounts claimed in each district.

The regulations prescribed that all claims should be filed on or before the 1st day of September, 1895, and afterwards this limitation was extended to October 1, 1895, and so far as this office has any knowledge no other claims will be presented under this act.

These claims amount to $6,111,505.44, and are classified as follows:

District.	Kind of sugar.	Number of claims.	Amount of production.	Bounty claimed.
			Pounds.	
Louisiana	Cane	473	698,952,432	$5,591,617.94

In the course of the examination of these claims in this office it may be necessary to make additions or deductions in the amount claimed on account of errors, and the foregoing amounts are subject to slight changes.

The work of the sugar bounty division, as first organized, related to the payment of claims under the act of October 1, 1890. This work was completed on the 31st day of January, 1895, and the division was abolished. The extra administrative expenses of executing the bounty law for the period from July 1 to August 27, 1894, were $6,178.65.

INCOME TAX.

The act of Congress entitled "An act to reduce taxation, to provide revenue for the Government, and for other purposes," in effect August 28, 1894, provided:

SEC. 27. That from and after the first day of January, eighteen hundred and ninety-five, and until the first day of January, nineteen hundred, there shall be assessed, levied, collected, and paid annually upon the gains, profits, and income received in the preceding calendar year by every citizen of the United States, whether residing at home or abroad, and every person residing therein, whether said gains, profits or income be derived from any kind of property, rents, interest dividends or salaries, or from any profession, trade, employment or vocation, carried on in the United States or elsewhere, or from any other source whatever, a tax of two per centum on the amount so derived over and above four thousand dollars, and a like tax shall be levied, collected, and paid annually upon the gains, profits, and income from all property owned and of every business, trade or profession carried on in the United States by persons residing without the United States. * * *

SEC. 32. That there shall be assessed, levied and collected except as herein otherwise provided, a tax of two per centum annually on the net profits or income above actual operating and business expenses, including expenses for materials purchased for manufacture or bought for resale, losses, and interest on bonded and other indebtedness of all banks, banking institutions, trust companies, saving institutions, fire, marine, life, and other insurance companies, railroad, canal, turnpike, canal navigation, slack water, telephone, telegraph, express, electric light, gas, water, street railway companies, and all other corporations, companies or associations doing business for profit in the United States, no matter how created and organized, but not including partnerships. * * *

SEC. 33. That there shall be levied, collected, and paid on all salaries of officers, or payments for services to persons in the civil, military, or naval, or other employment or service of the United States, including Senators and Representatives and Delegates in Congress, when exceeding the rate of four thousand dollars per annum, a tax of two per centum on the excess above the said four thousand dollars; * * *

The Act further provided that this tax should be assessed by the Commissioner of Internal Revenue, and collected and paid upon the gains, profits, and income for the year ending the 31st day of December next preceding the time for levying, collecting and paying the same.

In the Urgent Deficiency Bill approved January 25, 1895, the sum of $245,095 was appropriated to defray the expenses incident to the collection of the tax, and soon thereafter, the Income-Tax Division of this office was organized. The necessary blank forms, regulations, and circulars of instruction were prepared, printed and transmitted to the several collectors of internal revenue for their guidance.

By the provisions of the Joint Resolution of February 21, 1895, the time for the taxpayer to make return was extended from March 1 to April 15, following.

The returns as received by the collectors were included in a monthly list, and forwarded to this office for examination and assessment.

On April 8, 1895, the work of the Income Tax-Division was interrupted by a decision of the Supreme Court of the United States which decided in a case before it, that the provisions of the law taxing incomes derived from rents from real estate, and from state and municipal bonds were null, void, and inoperative. After this decision of the Court, all returns which had been received at this office were sent back to the collectors, with additional instructions relative thereto.

This decision would have occasioned a reduction of, at least, 35 per cent in the amount of revenue anticipated from this source.

The work of the Income-Tax Division was practically terminated May 2), 1895, when upon a rehearing of the above case before a full bench of the Supreme Court, it was finally decided that the whole income-tax law was null and void.

Following the decision, instructions were immediately sent to the collectors to suspend all income-tax work, and to forward to this office, under seal, all books, returns and papers relating to income tax, in their possession, which was done; and, after a further examination and classification, the same were filed, secure from public inspection.

In this connection, I recommend that, as these returns and records contain much information of a private nature relative to the business of persons and corporations, Congress take such action as will authorize the early and complete destruction of all income-tax returns, statements and records relative thereto, now in the custody of this office.

The number of taxable persons making returns was 48,672, and the amount of tax from that source was $6,128,051.45; the number of taxable corporations making returns was 29,653, and the tax from these corporations amounted to $9,815,697.24; the aggregate number of taxable persons and corporations was 78,325, and the aggregate amount of tax from both sources was $15,943,748.69. Returns were made by 70,152 persons and 20,248 corporations who claimed they were not subject to the tax, making an aggregate of 90,400 persons and corporations claiming exemption from the tax. The decision of the Supreme Court of the United States, of April 8, 1895, which declared that incomes from rents from real estate, and from State and municipal bonds were not taxable, undoubtedly had the effect to largely increase the number of nontaxable returns.

It is also known that many persons and corporations required by the Act to make returns, failed to do so.

From the reports of collectors and agents, and from other reliable sources, it is estimated by this office that the collections under the income-tax law, if the same could have been enforced without interruption, would have reached, for the fiscal year ended June 30, 1895, above $30,000,000.

COST OF INCOME-TAX WORK.

There were employed in the examination and classification of returns in this office, 16 persons, at an expense of $5,254.74; 243 deputy collectors were employed in the field at a cost of $86,366.64, making the total cost of work performed in connection with the enforcement of the income-tax law $91,621.38. As both the office and field forces were increased from time to time as required by the interest of the public service, many of the persons included in the above figures were in the service but a short time. The expense for the collection of the tax for the entire fiscal year would not have exceeded twenty per cent additional to the amount expended.

The following tabular statements exhibit by districts, the number of taxpayers, the amount of tax returned, the occupation of the persons, and the character of the business of the corporations making the returns.

DIVISION OF CHEMISTRY.

The following table shows the number and character of the samples examined in the laboratory at San Francisco, Cal., during the fiscal year ended June 30, 1895:

Fortified sweet wines	915
Sugar	135
Butter	158
Miscellaneous	10
Total	1,218

The following table shows the number and character of samples examined in the work of the laboratory at Washington, D. C., during the past fiscal year:

Oleomargarine	81
Butter	47
Malt liquors	18
Fermented liquors other than malt	6
Distilled liquors	3
Fortified (and sweetened) wines	18
Smoking opium	5
Stamp paper	1
Ink	27
Mucilage	11
Typewriter ribbons	15
Carbon paper	6
Miscellaneous	5
Total	243
Increase over last fiscal year	10

Expert testimony in regard to samples was rendered in court in three cases during the year.

The number of samples of material suspected of being oleomargarine was 128, an increase of 34 over last year.

The provisions of section 67 of the act of August 28, 1894, which extend the privilege of fortification with grape brandy free of tax to wines deficient in sugar, have resulted in an increase of the work of the laboratory at Washington, samples of all such wines produced east of the Rocky Mountains being examined here.

In pursuance of the provisions of paragraph 244 of the same act, the portable stills and apparatus used by this office for work in the field on fortified sweet wines have been furnished the customs officers of the principal Ports of Entry under the terms of Department Circular No. 47, prescribing this apparatus for determining the percentage of alcohol in imported wines, fruit juices, etc.

The act approved March 2, 1895, entitled, "An Act to regulate the sale of milk in the District of Columbia," etc., has relieved this laboratory as it transfers to the Health Officer of the District the duties heretofore imposed upon this office by the Act of October 12, 1888, in so far as relates to the sale of milk.

The office of microscopist having been abolished during the past fiscal year, the entire work of the laboratory now devolves upon the Chemist.

AMENDMENT OF EXISTING LAWS.

I recommend that Congress be asked to amend existing internal-revenue laws in accordance with the following suggestions.

In every instance the change desired will promote the efficiency of the service, afford better facilities for the protection of the interests of the Government, and enable this Bureau to meet the new business conditions which have arisen since the passage of the laws now in force.

Amend Sections 52 and 55 of the Act of August 28, 1894, by providing for an allowance for losses in transportation of spirits to a general bonded warehouse.

Under existing statutes enacted prior to August 28, 1894, provision is made for the abatement of the tax on distilled spirits lost in transportation from bonded warehouses for export or for transfer to manufacturing warehouses, provided that such losses are without fraud, collusion or negligence of the distillers, owners and transportation companies and their agents and employes. Sections 52 and 55 of the Act of August 28, 1894, while authorizing the transportation of distilled spirits to general bonded warehouses, do not authorize allowances for losses in transportation as in the other cases named. I can not see why there should be any discrimination against transportations of this class, and therefore recommend that the provisions of existing law as to allowances for loss in transportation to manufacturing warehouses, or for export, be made to apply to transportations to general bonded warehouses.

Amend Section 52 of the Act of August 28, 1894, so that general bonded warehouses shall be used only as places of storage of spirits removed from distillery warehouses, or from other general bonded warehouses in the same district, and so as to provide for a charge of 25 cents for each package, or such sum as may be necessary to cover the expense of gauging.

This action is desired for the reason that the establishment of general bonded warehouses was recommended by this Office, on the ground that it would encourage and facilitate the business of a large number of small distillers throughout the country, who by this means would be able to handle their products to advantage. The law was not intended to make the Government bear the loss on account of the shrinkage between the places of production and the markets. Under the practice which now prevails the general bonded warehouse is used by some producers of spirits simply as a place from which their goods may be distributed to their consumers in that locality.

Amend Section 3449 by inserting before the word "ships" the words "sells or offers to sell."

This amendment is desired for the reason that under the present law it is not unlawful to sell or offer for sale spirits under any other than their proper name, but it is unlawful to so ship them. For the protection of all classes, consumers as well as shippers, it is necessary that the restriction should be made to include the act of selling or offering for sale.

I recommend such legislation as may be necessary to enable distillers or owners of spirits in distillery warehouses to bottle the same

for export in bond or for domestic use, under Government supervision, after payment of the tax thereon.

It is believed that permitting the bottling in bond, under certain restrictions, of goods of the same kind, age and proof for domestic use, by giving the Government guaranty as to their purity and age, will greatly improve their commercial character and value, and will at the same time afford additional protection against fraud.

The change as to goods for export is desirable for many reasons. It is believed that a law providing for this change could under proper regulations be carried into effect with entire safety to the revenues.

I recommend that Collectors of Internal Revenue be authorized by law to keep records of the ownership of distilled spirits in internal-revenue bonded warehouses, in all cases in which there are controversies as to such ownership.

Also that such a law be passed as will enable the owners of distilled spirits in a distillery warehouse, general bonded warehouse, or special bonded warehouse to withdraw the same upon payment of the tax or for any purpose authorized by law, and, in case of dispute as to ownership, upon the giving of an indemnity bond by the party to whom the spirits are delivered.

This action is desirable for several reasons, chief among which is the fact that it will have a beneficial effect on commercial transactions in the sale of spirits in bond. As the law now stands, dealers are unwilling to buy spirits in bond, because should difficulties or misunderstandings arise between them and the distillers, it is impossible for them to remove the goods which they have purchased to a general bonded warehouse, or for payment of tax, without the consent of the distiller, who must under the law execute the papers.

A further reason for this change is that litigation in local courts has frequently made it plain to this Office that the rightful owner of the spirits is some one other than the distiller, and the drastic character of the law at this time with reference to the rights of distillers is such that this Office is precluded from placing the rightful owner of the spirits in possession thereof, without the consent of the distiller, although so decreed by the highest courts of the State.

Amend Section 3255 so as to allow the use of fruits other than apples, peaches and grapes for distillation.

This is desired in order to afford brandy distillers the privilege of distilling pears, prunes, apricots, oranges and other fruits fit for making brandy when they desire to do so. Great complaint reached this office during last season, when the early frost destroyed the orange crop in the State of Florida, and it was made clear that if the people had had the privilege of distilling this fruit, they would have realized a considerable amount upon the crop, which was rendered entirely useless for any other purpose. There seems to be no good reason why the law should not be modified so as to meet this most reasonable demand.

Amend Section 3311, so that fermenters not in use at distilleries may be closed and fastened in such manner as may be prescribed by the Commissioner of Internal Revenue and approved by the Secretary of the Treasury.

This amendment is made necessary by reason of the impracticability of enforcing the statute as it now exists. It requires that tubs shall be closed with close-fitting covers, fastened by nails, seals, and otherwise.

In some of the larger distilleries the fermenting tubs are from 20 to 30 feet in diameter, and hold many thousand gallons of mash.

It is impossible to practically apply the methods for closing prescribed by the statute, and detrimental to the property interests of the distiller, as the closing of tubs in a wet condition causes them to rot, and renders them unfit for use. It should be permissible to close the tubs by simply locking the outlets in a safe manner. No danger to the revenues would result from such a modification of the law.

A further amendment to the provisions of this section should be made, so that fermenters at distilleries may be opened and closed by such officer as may be designated by the Commissioner of Internal Revenue, or the collector of the district for that purpose.

This amendment is necessary in order that distillers may operate their plants with the smallest number of fermenters, and in the most economical manner possible, not only for themselves, but for the Government.

As the law now stands, at many of the larger distilleries it is necessary for a deputy collector to visit the plant twice a day for the purpose of opening and closing tubs, so that the distiller may accomplish the object above referred to. The safety of the revenues would be amply protected by allowing one of the officers constantly on duty at the distillery to perform this duty under proper restrictions, and, therefore, the amendment is earnestly recommended.

Amend Section 3153c so as to provide that storekeepers and storekeepers and gaugers who are assigned to distilleries whose registered capacity is 20 bushels, or less, shall receive such compensation as may be prescribed by the Commissioner of Internal Revenue, not to exceed $4 per day.

It is believed that an amendment of this character will prove beneficial to the service, as it will place within the discretion of the Commissioner the payment of a greater sum than $2 per day at the smaller distilleries, where, by reason of their location and the small pay allowed, the Government officer, in many cases, is compelled to live in the family of the distiller, and becomes his "hand" or assistant, serving him in that capacity, and is thus made a mere tool in the hands of the distiller to assist him in violating the law. It is believed that if this discretion is lodged in the hands of the Commissioner, he will be able to prevent fraudulent practices, in many cases, by transferring to another distillery an officer assigned to a distillery which suspends operations because the distiller is prevented by the presence of such officer from perpetrating fraud.

Amend Section 3163b by striking out the words "when transferred from one distillery to another," and inserting in their place the words "when traveling to a warehouse to which assigned, or when transferred from one warehouse to another;" and, also, by striking out the words "from one distillery to another," in the last line but one of the Section. This change is necessary to enable the Commissioner to utilize unassigned officers by placing them on duty at points remote from their homes.

As the law now stands, it is impracticable to send an unassigned officer from his home to the place where his services are desired, unless the new assignment is of a permanent character, because the expenses of the officer can only be paid when he goes from one assignment to another. The services required of an officer at a point remote from his home are frequently so temporary in their character, that the traveling expenses required to reach his destination are greater than his total per diem during the assignment. Under existing law, it is impossible to make the most advantageous disposition of the force of officers in commission.

Amend Section 3282 so that bakers and manufacturers of yeast may make and have on hand mash, wort, or wash fit for distillation, in the conduct of these industries, the quantity of such mash, wort, or wash to be fixed and the purpose for which it is to be used to be strictly limited and defined.

This amendment will enable makers of yeast and bakers to carry on their legitimate business without interference from this office. As the law now stands, makers of yeast who are engaged in the business of distilling, or in manufacturing vinegar, are disposed to make complaints against those persons engaged in the making of yeast alone, and bakers who make yeast for use in their business.

I also recommend that Section 61 of the Act of August 28, 1894, allowing the use of alcohol free of tax by manufacturers under certain conditions, be repealed.

I have the honor to be, very respectfully,

JOS. S. MILLER,
Commissioner.

Hon. J. G. CARLISLE,
Secretary of the Treasury.

NOTE.—The following example is given as an illustration of the use that can be made of Table C in connection with Table E in ascertaining the collections, approximately, for each State and Territory, on spirits, tobacco, fermented liquors, etc., for any year from 1864 to 1895, when such information is desired and a report for that year is not at hand. In the calculation of the percentages there is always a remainder. Hence, in reversing the process and multiplying the per cent (quotient) by the divisor the product will not equal the dividend exactly, but it will be so near to it as to answer most practical purposes.

The per cent of spirits for Illinois in 1885 was 30.4346. (See p. 246, Rep. 1890). The total collections on spirits in the United States that year were $67,511,208.63. (See p. 333, Rep. 1890). $67,511,208.63 × 30.4346 = $20,546,766.30. The actual collections were $20,546,765.19 (see p. 27, Rep. 1885), showing a difference of only $1.11 between the actual collections and the collections as obtained by calculation.

(a) By order of the Commissioner of Internal Revenue, dated January 25, 1870, so much of the Indian Territory as constitutes a part of the western judicial district of Arkansas was attached to the third collection district of Arkansas; by similar orders the Indian Territory was transferred and attached to the fifth district of Missouri June 12, 1872, and to the State of Kansas, August 8, 1881.

(b) The Territory of Alaska was attached to Oregon December 27, 1872.

*Balance of collections not reported prior to final settlement of the collector's account.

D.—APPENDIX No. 1, SHOWING THE DIFFERENCES BETWEEN THE INTERNAL-REVENUE COLLECTIONS IN THE DISTRICTS, STATES, TERRITORIES, AND YEARS BELOW NAMED, AS REPORTED BY COLLECTORS AND PUBLISHED IN THE SEVERAL ANNUAL REPORTS OF THE COMMISSIONER, AND THE TRUE COLLECTIONS.

[NOTE.—These differences were mostly discovered at the final settlement of the accounts of such collectors as have retired from office after the reports for the years in which they occurred had been printed. Hence their appearance in this form.

To ascertain the exact amount collected in any one of the following-named districts, States, or Territories prior to July 1, 1894, add to or subtract from, as the case may be, the collections for that district, State, or Territory, in the "total" column in Table D, the sum or sums entered opposite the same district, State, or Territory in this appendix. The result will be the aggregate amount collected.

On pages 338–341 the signs (+) and (—) are used to denote the amounts to be added and subtracted respectively.]

* A part of the first proviso of section 59, act of July 20, 1868, reads as follows: "A tax of $4 on each barrel, counting 40 gallons of proof spirits to the barrel, shall be assessed and collected from the owner of any distilled spirits which may be in bonded warehouse at the date of the taking effect of this act, to be paid whenever the same shall be withdrawn from such warehouse." This proviso, in effect, makes the tax 60 cents per gallon on 24,383,951 gallons in warehouse at the time of the passage of that act.

† Section 56 of act approved July 20, 1868, provided that all distilled spirits in bonded warehouse at the time of the passage of that act not withdrawn within nine months should be forfeited to the United States. The act of April 10, 1869, extended the time of the withdrawal of such spirits to June 30, 1869, but imposed a tax of 1 cent per gallon for each month after April 20, 1869. The receipts on *account of this additional* tax were $51,695.27.

NOTE.—The act of July 1, 1862, went into operation September 1, 1862. The act of March 3, 1863, provided that the tax on fermented liquors should be 60 cents per barrel from the date of the passage of that act to April 1, 1864. Hence the tax of 60 cents per barrel having expired by limitation April 1, 1864, the tax of $1 per barrel under act of July 1, 1862, was again revived, and this rate, under different acts, has continued in force from and including that date.
